

Appendix 1: Mural artwork locations

East Street Bridge, East Street, Derby

A prominent location spanning East Street, a pedestrianised area with mixed use retail and two entrances to the Derbion Shopping Centre. East Street is a key route linking Bus Station, Derbion Shopping Centre and Becketwell regeneration area. The commission is for both sides of the bridge.

The bridge dimensions are 12.5m wide (across the street) by 2.2m high. The underside of the bridge is 6m above the pavement. This is a high footfall area, access and public safety will be key considerations within delivering your commission. There are currently vinyl banners attached to the bridge which will be removed. The bridge surface is concrete.

Substation at St Werburgh's, Bold Lane Derby

The substation is located on an area of open space next to the Church of St Werburgh's and Bold Lane car park. The substation has four walls which may benefit from an intervention given there is public access through the whole site.
