

Washable nappies

Modern washable nappies are easy to use and adjustable. No safety pins, no tricky folding, just a variety of super soft fabrics and colourful designs.

Soft and secure

Washables are typically made from bamboo or other soft fabrics, meaning they will sit nicely on baby's bottom.

Use them with a liner inside to keep your baby dry. You can choose from biodegradable liners that can be flushed away or reusable liners that can be washed and used again.

Save money

The total cost of using washable nappies can be less than half that of using disposables.

Babies will need an average of 5,000 nappy changes before being potty trained.

If you choose washables, you will only need 15–24 nappies, saving you up to £1,000 depending on the type of nappy you choose.

Go green

Eight million disposable nappies are thrown away every day in the UK and most of them go to landfill.

You can cut your household rubbish by up to half and help the environment by choosing real nappies.

Our top tips:

- Wash nappies and wraps at 40–60°C.

- Hang nappies out to dry or use an airer; don't tumble dry them.
- Don't use fabric conditioner, as this will reduce the nappy's absorbency.
- Use eco-friendly washing powders.
- Use the same washable nappies if you have more than one child.
- Buy pre-loved or nearly-new nappies where possible.
- Use organic (non-bleached) products.
- Don't iron washable nappies.
