Notes

1. If a child has more than one referral in 2018-19 then each referral will be counted.
2. Recording of referral outcomes varies between local authorities because of differences in local reporting practices. Therefore there may be considerable variation in the numbers of referrals recorded as no further action and number resulting in an assessment and the child was assessed not to be in need in the year, at local authority level.

Rounding and Suppression:

Therefore there may be considerable variation in the numbers of referrals recorded as no further action and number resulting in an assessment and the child was assessed not to be in need in the year, at local authority level.

Rounding and Suppression:

England and regional totals are rounded to the nearest 10 therefore sub totals may not sum to totals. Percentages and rates are rounded to one decimal place.

c Any number between 1 and 5 inclusive or a percentage based on a numerator between 1 and 5 inclusive has been suppressed and replaced by c. Secondary suppression has been carried out where necessary to preserve confidentiality.

Notes

1. If a child has more than one referral in 2018-19 then each referral will be counted.

2. Recording of referral outcomes varies between local authorities because of differences in local reporting practices. Therefore there may be considerable variation in the numbers of referrals recorded as no further action and number resulting in an assessment and the child was assessed not to be in need in the year, at local authority level.

Rounding and Suppression:

England and regional totals are rounded to the nearest 10 therefore sub totals may not sum to totals. Percentages and rates are rounded to one decimal place.
